

UNIVERZITA
KARLOVA

Udělení
čestného doktorátu UK
Prof. Rolfu-Dieteru Heuerovi, Ph.D.
a Prof. Thomasi Evanu Levymu
ve Velké aule Karolina
6. dubna 2018

Award of
CU honorary doctorate to
Prof. Rolf-Dieter Heuer, Ph.D.
and Prof. Thomas Evan Levy
in the Great Hall of the Carolinum
6th April 2018

Prof. Rolf-Dieter Heuer, Ph.D.

Prof. Thomas Evan Levy

CURRICULUM VITAE

A ZDŮVODNĚNÍ NÁVRHU NA UDĚLENÍ ČESTNÉ VĚDECKÉ HODNOSTI

Prof. Dr. Rolf-Dieter Heuer

*1948

Profesor Rolf-Dieter Heuer se narodil v roce 1948 v Boll/Goeppingen. Studoval fyziku na Univerzitě ve Stuttgartu, kde promoval v roce 1974, PhD získal na Univerzitě v Heidelbergu v roce 1977 pod vedením Prof. Joachim Heintze. Prof. Heuer je experimentální čisticový fyzik. Většina jeho vědecké práce se týkala srážek elektronů s pozitrony, vývoji experimentálních technik, konstrukci a využívání velkých detektorových systémů.

V roce 1977 se stal vědeckým pracovníkem na Univerzitě v Heidelbergu a pracoval do roku 1983 pro experiment JADE na elektron-pozitronovém urychlovači PETRA v laboratoři Deutsche Elektronen-Synchrotron (DESY) v Hamburgu. V letech 1984 až 1998 byl Prof. Heuer kmenovým zaměstnancem v CERN a pracoval pro experiment OPAL na elektron-pozitronovém urychlovači LEP. Odpovídal za koordinaci návrhu a konstrukce dráhové jetové komory a koordinoval přípravu celého systému rekonstrukce drah během konstrukce experimentu. Poté se stal koordinátorem provozu experimentu OPAL během startovní fáze LEP1 v letech 1989–1992 a konečně na léta 1994–1998 vedoucím tohoto experimentu, odpovědným za vědecký výstup a všechny aspekty spolupráce více než 300 fyziků. V jeho funkčním období probíhala analýza dat fáze LEP1 a příprava na zvýšení energie svazků ve fázi LEP2.

V roce 1998 byl Rolf-Dieter Heuer ustaven na pozici řádného profesora (C4) na Univerzitě v Hamburgu. Vstoupil do experimentu H1 na urychlovači HERA v DESY a současně s tím ustavil pracovní skupinu, která připravovala experimenty na plánovaný elektron-pozitronový urychlovač Linear Collider. Skupina rychle získala vedoucí roli v této oblasti ve světovém měřítku. V prosinci 2004 se Prof. Heuer stal vědeckým ředitelem pro čisticovou a astročasticovou fyziku v DESY, která je členem Helmholtzovy aliance. Hlavním cílem bylo udržet DESY jako ústřední česticovou laboratoř v Německu a posílit její vazbu na univerzity a na CERN. S tímto cílem Prof. Heuer inicioval restrukturalizaci česticové fyziky v Německu a její zaměření na využití nejvyšších energií se speciálním důrazem na urychlovač LHC budovaný v CERN. Jeho iniciativa vyústila v projekt Helmholtzovy aliance “Physics at the Terascale” zahrnující všechny německé univerzitní skupiny pracující v časticové fyzice nejvyšších energií

společně s Helmholtzovými centry DESY a Karlsruhe. Podporoval také účast na projektu elektron-pozitronového srážeče ILC and vývoji detektorů pro něj.

V prosinci 2007 byl Prof. Heuer zvolen generálním ředitelem CERN pro funkční období od ledna 2009. Během prvních dvou let jeho mandátu (2009, 2010) byl urychlovač LHC zprovozněn a zahájil velmi úspěšné období fyzikálních experimentů při nejvyšších energiích, které kdy lidstvo pomocí urychlovačů dosáhlo. Vedle LHC je v CERN kladen velký důraz na rozmanitou fyziku využívající celý urychlovačový komplex. Prof. Heuer také aktivně angažoval CERN při zviditelňování vědy a podpoře vzdělávání ve vědě, technologii, inženýrských disciplínách a matematice pro udržitelný rozvoj společnosti.

Během svého ředitelství v DESY a CERN získal manažerskou zkušenosť a navázel mnohé mezinárodní kontakty. Dnes je členem řady řídících a poradních těles.

Je prezidentem Německé fyzikální společnosti a rady SESAME (Synchrotron-Light for Experimental Science and Applications in the Middle East). Publikoval přes 500 vědeckých článků a bylo mu uděleno 18 čestných doktorátů univerzit v Evropě, Asii, Austrálii a Kanadě. Je členem Německé akademie věc Leopoldina, členem Polské akademie věd a umění, korespondujícím členem Akademie věd a umění v Heidelbergu, honorárním konzulem AGH University v polském Krakově, čestným členem Evropské fyzikální společnosti, a nositelem Velkého kříže prvního stupně Řádu za zásluhy Spolkové republiky Německo.

PROMOČNÍ FORMULE A SLIB DOKTORANDA

Promotor:

Cōnsilium Facultatis mathēmaticae physicaeque disciplīnae Ūniversitatis Carolīnae nōn ignōrāns, vir illūstrissime, tē et doctrinā tuā, quam in particulārum physicae quaestiōnēs perscrūtandās impendistī, et vītae tuae operibus necnōn āctibus, quibus patriae tuae atque tōtius mundī cōgnitiōnem et scientiam generī hūmānō maximē prōficiam amplificāvistī, dē salūte ūniversī generis hūmānī p̄ae cēterīs optimē meritum esse

commūnī omnium applausū dēcrēvit, ut in doctōrum physicae disciplīnārum honōris causā numerum recipereris.

Quod ordinis nostrī cōnsultum cum ā cōnsiliō generālī Ūniversitatis Carolīnae cōfirmātum esset, tē, vir illūstrissime, petiimus, ut illum ūnum et summum honōrem, quem tibi Ūniversitās nostra impertīre posset, in hōc sollemnī cōsessū acciperēs.

Prius autem spōnsiō sollemnis tibi suscipienda est.

SPONDĒBIS IGITUR:

Přimum tē huius Ūniversitatis, in quā hunc summum virī doctī gradum honōris ascenderis, piām perpetuō memoriam habitūrum eīque auctōritāte, auxiliō, cōsiliīs tuīs numquam dēfutūrum,

dein studia ūtilissima, sicut adhūc facere semper cōnsuēvistī, prōvehere nōn dēsítūrum, ut vēritās salūtem generis hūmānī continēns prōpāgētur et lūx eius terrārum orbem illūstret.

Haec tū ex animī tuī sententiā spondēbis ac pollicēberis?

LAUDATIO DĚKANA MATEMATICKO-FYZIKÁLNÍ FAULTY UK

Profesor Rolf-Dieter Heuer se narodil v roce 1948 v Bad Boll, Německo. Studoval fyziku na Univerzitě ve Stuttgartu, kde promoval v roce 1974, PhD získal na Univerzitě v Heidelbergu v roce 1977 pod vedením Prof. Joachim Heintze. Prof. Heuer je experimentální částicový fyzik. Většina jeho vědecké práce se týkala srážek elektronů s pozitrony, vývoji experimentálních technik, konstrukci a využívání velkých detektorových systémů.

V roce 1977 se stal vědeckým pracovníkem na Univerzitě v Heidelbergu a pracoval do roku 1983 pro experiment JADE na elektron-pozitronovém urychlovači PETRA v laboratoři Deutsche Elektronen- Synchrotron (DESY) v Hamburgu.

V letech 1984 až 1998 byl Prof. Heuer kmenovým zaměstnancem v CERN a pracoval pro experiment OPAL na elektron-pozitronovém urychlovači LEP. V období 1994-1998 byl vedoucím tohoto experimentu, odpovědným za vědecký výstup a všechny aspekty spolupráce více než 300 fyziků.

V roce 1998 byl Rolf-Dieter Heuer ustaven na pozici řádného profesora (C4) na Univerzitě v Hamburgu. Vstoupil do experimentu H1 na urychlovači HERA v DESY a současně s tím ustavil pracovní skupinu, která připravovala experimenty na plánovaný elektron-pozitronový urychlovač Linear Collider. Skupina rychle získala vedoucí roli v této oblasti ve světovém měřítku.

V prosinci 2004 se Prof. Heuer stal vědeckým ředitelem pro částicovou a astročásticovou fyziku v DESY, která je členem Helmholtzovy aliance. Hlavním cílem bylo udržet DESY jako ústřední částicovou laboratoř v Německu a posílit její vazbu na univerzity a na CERN.

V prosinci 2007 byl Prof. Heuer zvolen generálním ředitelem CERN pro funkční období od ledna 2009. Během prvních dvou let jeho mandátu (2009, 2010) byl urychlovač LHC zprovozněn a zahájil velmi úspěšné období fyzikálních experimentů při nejvyšších energiích, které kdy lidstvo pomocí urychlovačů dosáhlo. Tento výzkum vedl mimo jiné k objevu Higgsova bosonu. Vedle LHC je v CERN kladen velký důraz na rozmanitou fyziku využívající celý urychlovačový komplex. Prof. Heuer také aktivně angažoval CERN při zviditelňování vědy a podpoře vzdělávání ve vědě, technologií, inženýrských disciplínách a matematice pro udržitelný rozvoj společnosti. Jeho velice úspěšný mandát generálního ředitele CERN byl prodloužen o dva roky, což se stalo pouze podruhé ve více než šedesáti leté historii CERN.

Během svého ředitelství v DESY a CERN získal manažerskou zkušenosť a navázal mnohé mezinárodní kontakty. Dnes je členem řady řídících a poradních těles.

Je prezidentem Německé fyzikální společnosti and rady SESAME (Synchrotron-Light for Experimental Science and Applications in the Middle East). Publikoval přes 500 vědeckých článků a bylo mu uděleno 18 čestných doktorátů univerzit v Evropě, Asii, Austrálii a Kanadě.

Je nositelem Velkého kříže prvního stupně Řádu za zásluhy Spolkové republiky Německo.

Vědecká spolupráce Prof. Heuera s českou vědeckou komunitou trvá již od období experimentů na urychlovači LEP. Spolupráce nabyla na síle v období výjimečně úspěšného ředitelování Prof. Heuera v CERN. Prof. Heuer několikrát navštívil Českou Republiku, je aktivním členem Mezinárodní rady UK. V roce 2012 mu byla udělena pamětní medaile Matematicko-fyzikální fakulty UK, v roce 2014 zlatá medaile Univerzity Karlovy a v roce 2016 nejvyšší ocenění Akademie věd České republiky, medaile De scientia at humanitate optime meritis.

Prof. Rolf-Dieter Heuer je nepochybně jedním z nejuznávanějších světových vědců, který dlouhodobě pěstuje aktivní vztahy s vědci ČR a Univerzitou Karlovou. Je mi velkou ctí, že mohu přispět a zúčastnit se slavnosti udělení doctor honoris causa.

CURRICULUM VITAE

AND JUSTIFICATION OF THE AWARD

Prof. Dr. Rolf-Dieter Heuer

*1948

Professor Rolf-Dieter Heuer was born in 1948 in Boll/Goeppingen. He studied physics at the University of Stuttgart where he graduated in 1974, and obtained his PhD at the University of Heidelberg in 1977 under the supervision of Prof. Joachim Heintze. Prof. Heuer is an experimental particle physicist. Most of his scientific work has been related to the study of electron-positron reactions, development of experimental techniques, as well as construction and running of large detector systems.

In 1977 he became research scientist at the University of Heidelberg working for the JADE experiment at the electron-positron storage ring PETRA until 1983, situated at the Deutsche Elektronen-Synchrotron DESY in Hamburg. From 1984 to 1998, Prof. Heuer was a staff member at CERN, working for the OPAL experiment at the electron-positron storage ring LEP. He was responsible for the coordination of design and construction of the tracking jet chamber and coordinated the whole tracking system during the experiment construction phase. He then became the run coordinator during the start-up phase of LEP1 in 1989-1992 and the OPAL spokesperson in 1994-1998, responsible for all aspects of the collaboration, comprising over 300 physicists, and for its scientific output. His term of office covered LEP1 data analysis and the LEP2 energy upgrade.

In 1998, Rolf-Dieter Heuer was appointed to a chair at the University of Hamburg (C4 professor). He joined the H1 experiment at the HERA collider at DESY and in parallel established a group working on the preparations for experiments at an electron-positron Linear Collider which quickly became one of the leading groups in this area world-wide. In December 2004, Prof. Heuer became research director for particle and astroparticle physics at the DESY laboratory, a member of the Helmholtz association. The main emphasis was to maintain DESY as the central particle physics laboratory in Germany, and to strengthen the links to the Universities as well as the links to CERN. To this extent he initiated the restructuring and focusing of German particle physics at the energy frontier with particular emphasis on the LHC. This resulted in the Helmholtz-Alliance "Physics at the Terascale" comprising all German University groups working at the energy frontier together with the Helmholtz centres DESY and Karlsruhe. He also fostered the participation in the electron-positron collider project ILC and the detector R&D related to it.

In December 2007 Prof. Heuer was elected Director General of CERN taking office January 2009. During the first two years of his mandate (2009, 2010) the LHC was brought into operation and started its very successful physics runs at the high energy frontier. In addition to the flagship LHC much emphasis is put on diversity of physics at CERN using the whole accelerator complex. He also actively engaged CERN in promoting the importance of science and STEM education for the sustainable development of the society.

During his directorates at DESY and at CERN he gained managerial experience and established many international contacts. Today he is member of several governing and advisory boards.

Designated President of the German Physical Society and of the Council of SESAME (Synchrotron-Light for Experimental Science and Applications in the Middle East).

Over 500 scientific papers published and holding 18 Honorary Degrees from universities in Europe, Asia, Australia and Canada.

Member of the German Academy of Sciences Leopoldina, Germany

Member of Polish Academy of Arts and Sciences, Cracow, Poland

Corresponding Member, Heidelberg Akademie der Wissenschaften, Germany

Honorary Consul, AGH University, Cracow, Poland

Honorary Member of the European Physical Society

Recipient of the Grand Cross 1st class of the Order of Merit of the Federal Republic of Germany

RECTOR

PROMOTOR

SPEECH OF THE DEAN OF THE FACULTY OF MATHEMATICS AND PHYSICS

Professor Rolf-Dieter Heuer was born in 1948 in Bad Boll, Germany. He studied physics at the University of Stuttgart where he graduated in 1974, and obtained his PhD at the University of Heidelberg in 1977 under the supervision of Prof. Joachim Heintze. Prof. Heuer is an experimental particle physicist. Most of his scientific work has been related to the study of electron-positron reactions, development of experimental techniques, as well as construction and running of large detector systems.

In 1977 he became research scientist at the University of Heidelberg working for the JADE experiment at the electron-positron storage ring PETRA, situated at the Deutsche Elektronen- Synchrotron DESY in Hamburg.

From 1984 to 1998, Prof. Heuer was a staff member at CERN, working for the OPAL experiment at the electron-positron storage ring LEP. He was the OPAL experiment spokesperson in 1994–1998, responsible for all aspects of the collaboration, comprising over 300 physicists, and for its scientific output.

In 1998, Rolf-Dieter Heuer was appointed to a chair at the University of Hamburg (C4 professor). He joined the H1 experiment at the HERA collider at DESY and in parallel established a group working on the preparations for experiments at an electron-positron Linear Collider which quickly became one of the leading groups in this area world-wide.

In December 2004, Prof. Heuer became research director for particle and astroparticle physics at the DESY laboratory. The main emphasis was to maintain DESY as the central particle physics laboratory in Germany, and to strengthen the links to the Universities as well as the links to CERN.

In December 2007 Prof. Heuer was elected Director General of CERN taking office in January 2009. During the first two years of his mandate (2009, 2010) the LHC was brought into operation and started its very successful physics runs at the high energy frontier that lead in particular to a discovery of Higgs boson in 2012. In addition to the flagship LHC much emphasis has been put on diversity of physics at CERN using the whole accelerator complex. Prof. Heuer also actively engaged CERN in promoting the importance of science and STEM education for the sustainable development of the society. His extraordinary successful term of office of Director General has been prolonged by two years that has happened only the second time in more than 60 year's history of CERN.

During his directorates at DESY and at CERN Prof. Heuer gained managerial experience and established many international contacts. Today he is member of several governing and advisory boards. In particular, he is

designated President of the German Physical Society and of the Council of SESAME (Synchrotron-Light for Experimental Science and Applications in the Middle East).

Prof. Heuer has published over 500 scientific papers published and is holding 18 honorary Degrees from universities in Europe, Asia, Australia and Canada.

He is recipient of the Grand Cross 1st class of the Order of Merit of the Federal Republic of Germany.

The scientific collaboration of Prof. Rolf-Dieter Heuer with the Czech scientific community dates back to LEP experiments at CERN. The collaboration intensified during his extraordinary successful mission of director general of CERN. Prof. Heuer several times visited the Czech Republic. He is an active member of International Advisory Board of Charles University. He has been awarded by a Commemorative Medal of Faculty of Mathematics and Physics, Charles University in 2012, by Gold Memorial Medal of Charles University in 2014 and by the highest award of Czech Academy of Sciences, medal De scientia at humanitate optime meritis in 2016.

Professor Rolf-Dieter Heuer is clearly one of the most recognized scientist in the world having long termed active contacts with Czech scientists and Charles University. It is my great pleasure to contribute and to participate at this doctor honoris causa ceremony.

CURRICULUM VITAE

A ZDŮVODNĚNÍ NÁVRHU
NA UDĚLENÍ ČESTNÉ VĚDECKÉ HODNOSTI

Prof. Thomas Evan Levy

Norma Kershaw profesor Archeologie starověkého Izraele
a sousedních zemí Kalifornské univerzity v San Diegu

Vzdělání

- B.A. Degree, Anthropology, University of Arizona, Tucson; Dean's Honor List, 1975
- Ph.D. Degree, Archaeology and Prehistory, University of Sheffield, England, 1981

Současnost

Distinguished Professor, Department of Anthropology;
Director, Center for Cyber-Archaeology and Sustainability, California Institute of Telecommunications and Information Technology (Calit2), Qualcomm Institute;
Director, UC San Diego Levantine Archaeology Laboratory;
Co-Director, Scripps Center for Marine and Environmental Archaeology, University of California, San Diego

Členství v mezinárodních organizacích

American Academy of Arts & Sciences, Fellow Class of 2008
American Schools of Oriental Research (life member); 2015–2017 Chair, Committee on Archaeological Policy
Archaeological Institute of America (Academic Trustee & member of Governing Board), 2016–
Associate, Current Anthropology, 2000–
Explorers Club, Fellow Class of 2009–
Israel Exploration Society, member, 1980–
Israel Prehistoric Society, member, 1980–
The Biblical Colloquium West, founding member, 1997–2008
American Institute of Archaeology, member, 2000–
Society of American Archaeology, member, 1992–

Mezinárodní ocenění

- 1996 University of California Presidential Award for Excellence in Undergraduate Research
- 1997 Best Academic Book in Archaeology, Biblical Archaeology Society, for T. E. Levy (ed.) 1995, *The Archaeology of Society in the Holy Land*. London: Leicester University Press

- 1998 Irene Levi-Sala Book Prize in the Archaeology of Israel for best publication in category of “popular non-fiction books,” for *The Archaeology of Society in the Holy Land*. London: Leicester University Press
- 2003 American Schools of Oriental Research, P. E. MacAllister *Field Archaeology Award*
- 2006 Inaugural holder of the Norma Kershaw Endowed Chair in the Archaeology of Ancient Israel and Neighboring Lands, University of California San Diego; April 30, 2006 –
- 2007 Department of Antiquities of Jordan Publication Award for *Crossing Jordan – North American Contributions to the Archaeology of Jordan* (London: Equinox) by the Department of Antiquities of Jordan, presented at the 10th Annual Conference on the History and Archaeology of Jordan, George Washington University, Washington, D.C. by H.R.H. Princess Sumaya al-Bint Hassan of Jordan and Dr. Fawwaz al-Khraysheh, Director General, DOAJ; May.
- 2008 Elected Fellow to the American Academy of Arts & Sciences, Boston, MA
- 2009 Elected Fellow to the Explorers Club, Headquarters in New York
- 2011 Biblical Archaeology Society Publication Award, Best Scholarly Book on Archaeology, *Historical Biblical Archaeology and the Future – The New Pragmatism*, (London: Equinox)
- 2011 Lowell Thomas Award for ‘Exploring the World’s Greatest Mysteries’, The Explorers Club, October 15, St. Louis, Missouri
- 2013 Best Academic Article, Biblical Archaeology Society, October, Washington, DC
- 2015 Elected member, European Academy of Sciences and Arts, March, Salzburg, Austria
- 2016 CENIC (Corporation for Education Network Initiatives in California) Award for Innovations in Networking – Research Applications
- 2017 Faculty Research Lecturer Award, University of California San Diego, Academic Senate Committee on Senate Awards

Nejvýznamnější expedice (výběr)

- 2017 UCSD 3D Archaeology in Israel Expedition. Project role: PI; with Assaf Yasur-Landau and Erez Ben-Yosef, September.
- 2016 UCSD – University of the Aegean (Rhodes) Kastrouli Land and Sea Project, Greece. Project role: PI; with Ioannis Liritzis and Richard Norris (SIO-UC San Diego). July 19 – August 11.
- 2015 UCSD – Institut national des sciences de l'archéologie et du Patrimoine, Morocco Cyber-Archaeology Expedition to Ifrane, Anti-Atlas mountains, ancient Jewish community.

- 2014 UCSD Cyber-Archaeology Expedition to Iron Age Khirbat al-Jariya, Jordan; Project role: PI, August.
- 2012 Cyber-Archaeology Expedition to Madh al-Dahab Gold Mines and Umm Damman Copper Production Site, Saudi Arabia; King Abdulla University of Science and Technology (KAUST), Saudi Arabia, Project role: Co-Field Director. September 3 – 11.
- 2012 UCSD Edom Lowlands Regional Archaeology Project (ELRAP); Phase II expedition to Faynan; October 1 – November 24. Principal Investigator and Co-Field Director.
- 2011 UCSD Edom Lowlands Regional Archaeology Project (ELRAP); Phase II expedition to Faynan; September 24 – November 24. Principal Investigator and Co-Field Director.
- 2009 UCSD Edom Lowlands Regional Archaeology Project (ELRAP) expedition to Khirbat en-Nahas, Jordan. September 24 – December 6, 2009. Principal Investigator and Co-Field Director.
- 2007–2004 Ethnoarchaeology research project in Tamil Nadu, India: Hereditary bronze caster community in Swamimalai; UC San Diego Expedition, role: PI
- 2006–2007 Edom Lowlands Regional Archaeology Project, Fall 2006 and Summer 2007. Role: Principal Investigator and Co-Director, UC San Diego Dept of Antiquities of Jordan expedition.
- 1999–2002 Excavation in Jabel Hamrat Fidan, Jordan. Pre-pottery Neolithic, Chalcolithic, Early Bronze II-IV and Iron Age sites. Role: Principal Investigator; UC San Diego Dept of Antiquities of Jordan expedition.
- 1997 Copper Age Donkey Caravan (Jordan-Israel) Expedition, National Geographic Society. Role: Principal Investigator.
- 1994–1996 Egyptian-Canaanite Interaction at Nahal Tillah, Northern Negev Desert, Israel. An NEH funded joint University of California, San Diego-Hebrew Union College, Expedition. Sponsored by the University of California, San Diego, Department of Anthropology, Judaic Studies Program, and Summer Session. Role: Principal Investigator.
- 1993 Excavations at Shiqmim, Northern Negev Desert, Israel. A joint University of California, San Diego – Hebrew Union College, Expedition, sponsored by the University of California Education Abroad Program. Role: Principal Investigator and Program Director.
- 1987 Excavations at the Gilat Chalcolithic cult site. Sponsored by the Nelson Glueck School of Biblical Archaeology, HUC-JIR,

- Jerusalem and the Israel Department of Antiquities and Museums. Role: Co-Director with Mr. David Alon.
- 1982–1984 Shiqmim Chalcolithic research expedition (Phase I). Sponsored by the Israel Department of Antiquities and Museums and the Negev Museum. Role: Principal Investigator.

Nejvýznamnější organizované konference a sympozia (výběr)

- 1993 *Archaeology in the Holy Land: New Approaches to the Past – The 1990s and Beyond*, held at the University of California, San Diego, January 28–31. Symposium organizer.
- 1998 *Egyptian – Canaanite Interaction During the Late 4th 3rd Millennium, BCE*. Nelson Glueck School of Biblical Archaeology, Jerusalem, Israel, April 13–16, 1998. Co-symposium organizer.
- 2004 *International conference on Radiocarbon Dating and the Iron Age Archaeology of the Levant*. Primary organizer, Oxford Centre for Hebrew and Jewish Studies, Sept. 6–10, 2004.
- 2006 *Biblical Archaeology and the Future*. Symposium to mark the inauguration of the Norma Kershaw Endowed Chair in the Archaeology of Ancient Israel and Neighboring Lands, UCSD, April 30, 2006; Symposium organizer.
- 2009 Theoretical Archaeology Group Meetings, Stanford University, May 1–3, 2009. Session organizer: *Changing models for understanding Biblical Edom: anthropology, environment and information technology*. Session organizer.
- 2012 *Social Theory and the Archaeology of the Ancient Near East*, 8th International Congress on the Archaeology of the Ancient Near East (ICAANE), April 30 – May 4, 2012, University of Warsaw, Poland. Session organizer, with Ianir Milevski.
- 2013 *Out of Egypt: Israel's Exodus between Text and Memory, History and Imagination*, International conference, May 31 – June 3, 2013, Qualcomm Institute, UC San Diego; Host and chief organizer.
- 2013 1st International Workshop on Virtual Archaeology – Museums & Cultural Tourism, Delphi, 40 Greece, 25–28 September; Transdisciplinary Research and Cyber-Archaeology Today: Toward the Museum of the Future, Session organizer.
- 2013 *Cyber-archaeology workshops with the American School of Classical Studies in Athens* (with Prof. J. Wright, Director)

- and Institute for Aegean Prehistory Center for East Crete (with Dr. T. Brogan).
- 2014 *Cyber-Archaeology in the Middle East Today*, Special Reception and Demos at UCSD Qualcomm Institute for ASOR Annual Meeting Participants, 20 November. Organizer.
- 2016 World Archaeology Congress, Kyoto, Japan, August 28 – September 2. *Cyber-Archaeology in Global Perspective* (with Maurizio Forte and Sarah Kinderdine).
- 2016 *Cyber-Archaeology in the Levant*, American Schools of Oriental Research (ASOR), Annual meetings.
- 2017 Scripps Center for Marine Archaeology Workshop, Scripps Institution of Oceanography – UC San Diego (with John Hildebrand), March 23.

PROMOČNÍ FORMULE A SLIB DOKTORANDA

Promotor:

Cōnsilium Facultatis philosophicae Ūniversitatis Carolīnae nōn ignōrāns, vir illūstrissime, tē et doctrinā tuā, quam in archaeologiae quaestioñēs perscrūtandās impendistī, et vītae tuae operibus necnōn āctibus, quibus patriae tuae atque tōtiū mundi cōgnitionem et scientiam generī hūmānō maximē prōficuam amplificāvistī, dē salūte ūniversi generis hūmānī prae cēteris optimē meritum esse

commūnī omnium applausū dēcrēvit, ut in doctōrum philosophiae honōris causā numerum recipereris.

Quod ordinis nostrī cōsultum cum ā cōnsiliō generālī Ūniversitatis Carolīnae cōfirmātum esset, tē, vir illūstrissime, petiimus, ut illum ūnum et summum honōrem, quem tibi Ūniversitās nostra impertīre posset, in hōc sollemnī cōsessū acciperēs.

Prius autem spōnsiō sollemnis tibi suscipienda est.

SPONDĒBIS IGITUR:

Prīnum tē huius Ūniversitatis, in quā hunc summum virī doctī gradum honōris ascenderis, piām perpetuō memoriam habitūrum eīque auctōritāte, auxiliō, cōsiliis tuīs numquam dēfutūrum,

dein studia ūtilissima, sīcut adhūc facere semper cōnsuēvistī, prōvehere nōn dēsitūrum, ut vēritās salūtem generis hūmānī continēns prōpāgētur et lūx eius terrārum orbem illūstret.

Haec tū ex animī tuī sententiā spondēbis ac pollicēberis?

Doctor:

SPONDEŌ AC POLLICEOR

Promotor:

Itaque iam nihil impedit, quōminus honōrēs, quibus tē ordō noster ornāre cupit, tibi impertiāmus.

Ergō ego, prōmōtor rīte cōnstitūtus,
ex dēcrētō cōnsiliī Facultātis philosophicae
tē, professōrem Thomam Evan Levy

virum doctissimum, quī dē Orientis Propinquī atque Aegyptī historiā tri-
um millēniōrum Chrīstum nātum praecēdētūm indāgandā orbī terrārum
optimē sīs meritus,

PHILOSOPHIAE DOCTŌREM HONŌRIS CAUSĀ CREŌ,
CREĀTUM RENUNTIŌ,

omnia philosophiae doctōris prīvilēgia in tē cōnferō in eiusque reī fidem
hoc diplōma Ūniversitātis Carolīnae sigillō maiōre īsignītum tibi in ma-
nūs trādō.

Decorēris etiam catēnā dēaurātā, quā vinculum tuum cum Ūniversitātē
Carolīnā per omnēs annōs dūrātūrum apertē ac symbolicē significētur.

QUOD BONUM, FĒLIX,
FAUSTUM FORTŪNĀTUMQUE ĒVENIAT!

RECTOR

PROMOTOR

LAUDATIO DĚKANA FILOZOFOICKÉ FAKULTY UK

Profesor Thomas Evan Levy se narodil 11. září 1953 v North Hollywood v Kalifornii ve Spojených státech amerických. Profesor Levy vyrostl v San Fernando Valley, kde si již ve věku teenagera mohl vyzkoušet první archeologické výzkumy, a to indiánských sídel v jedné ze čtvrtí Los Angeles zvané Pacific Palisades. Archeologie se mu stala celoživotní vášní. Jeho odborný zájem se přesunul do oblasti Levanty (dnešní území Izraele, Palestiny, Libanonu, Jordánska a Sýrie, v širším smyslu také Egypta a celého Východního Středomoří) a Indie, kam již téměř třicet let pravidelně cestuje za vykopávkami a další související vědeckou prací. Svého rozhodnutí nikdy nelitoval. Jak sám řekl: „Minulost je úžasná. Archeologii se věnuji již od střední školy a díky ní si každý den žiju svůj sen.“

Mateřskou institucí profesora Levyho je Kalifornská univerzita v San Diegu, kde působí jako Norma Kershaw profesor Archeologie starověkého Izraele a sousedních zemí. Profesor Levy je jednou z hlavních postav současného vědeckého bádání o několika zásadních tématech vztahujících se k vývoji civilizací. V první řadě jde o dobu vzniku prvních státních útvarů na konci 4. a počátku 3. tis. př. Kr. na Předmí Východě. Z doby 3. tis. př. Kr. pochází i Levyho objev největšího zdroje mědi v celé oblasti ve Wádí Fejnán. Tento objev má obrovský dosah i pro poznání historie starověkého Egypta a mezinárodních obchodních vztahů dané doby. Jeho výzkumy ve Wádí Fejnán poskytly i zcela nové poznatky k formování civilizačních okruhů doby železné a počátku starověkého Izraele. V posledních letech se Levy intenzivně věnuje také práci v oblasti tzv. *cyberarchaeology*, tedy využívání nejnovějších hi-tech technologií pro dokumentaci archeologických výzkumů a jejich interpretaci. V neposlední řadě je třeba zmínit i intenzivní zájem Prof. Levyho o tzv. etnoarcheologii, především pokud se týká metalurgie mědi a jejích tradičních metod. Tyto výzkumy Levy prováděl zejména v Indii. Svým významem je Prof. Levy skutečně globálním vědcem, jehož práce, její teoretický přesah a výchova několika generací archeologů a odborníků na dobu starověku mají skutečně světový význam.

Profesor Levy spolupracuje již od počátku 21. století s Českým egyptologickým ústavem Filozofické fakulty UK v oblasti archeologie a kontaktů mezi starověkým Egyptem a Syropalestinou. K tomu přispěly zejména Levyho výzkumy v teritoriu Wádí Fejnán, kde jeho expedice objevila unikátní památky z doby 3. a 1. tis. př. Kr. Český egyptologický ústav se věnuje značně podobným tématům a rovněž české archeologické výzkumy v Abúsíru nabízejí významné paralely pro Levyho práci na Předmí Východě jak v oblasti mezinárodního obchodu, tak v otázkách geneze prvních komplexních společností v 3. a 1. tis. př. Kr.

Ředitel Českého egyptologického ústavu, prof. Miroslav Bárta, přednášel jako host Thomase Levyho na Kalifornské univerzitě v San Diegu, stejně jako profesor Levy v Praze. Konečně několik studentů egyptologie v Praze se zúčastnilo výzkumu Prof. Levyho v Jordánsku jako součást své archeologické praxe. V neposlední řadě Levy a Bárta spolupracovali i na výzkumu moderní povahy Biblické archeologie v rámci publikace *Historical Biblical Archaeology and the Future. The New Pragmatism*, vydané v roce 2010. V poslední době se spolupráce soustředí na teorii přerušovaných rovnováh a její aplikaci v oborech jako jsou archeologie, egyptologie, historie a v neposlední řadě i bezpečnostní studie – i v návaznosti na zájem americké armády o tyto teorie a její konsekvence.

Kariéra Prof. Levyho není zdaleka u konce, přesto však je přehled jeho vědeckých expedic, organizovaných konferencí a ocenění velice dlouhý. Jeho bibliografie zahrnuje nespočet studií, monografií i editovaných sborníků pokrývajících prakticky každé významnější téma předovýchodní archeologie počínaje kulturami 4. a 3. tis. př. Kr., přes téma Starého zákona až po Dobu železnou. Levyho archeologické výzkumy a vědecká práce významně ovlivnily a nadále ovlivňují hned několik směrů bádání a měly zásadní vliv na generace badatelů.

Filozofická fakulta UK proto navrhla udělit profesoru Thomasovi E. Levymu titul *Doctor honoris causa*, a to za zásadní světový přínos k poznání dějin starověkého Předního Východu a Egypta v době 3.–1. tis. př. Kr.

**SLAVNOSTNÍHO CEREMONIÁLU
VE VELKÉ AULE KAROLINA SE ÚČASTNÍ
TITO ZÁSTUPCI UNIVERZITY KARLOVY**

Jeho Magnificence rektor UK

CURRICULUM VITAE

AND JUSTIFICATION OF THE AWARD

Prof. Thomas Evan Levy

Distinguished Professor of Anthropology, Norma Kershaw Chair
in the Archaeology of Ancient Israel and Neighboring Lands
University of California, San Diego

Education

- B.A. Degree, Anthropology, University of Arizona, Tucson; Dean's Honor List, 1975
- Ph.D. Degree, Archaeology and Prehistory, University of Sheffield, England, 1981

Current status

- Distinguished Professor, Department of Anthropology;
Director, Center for Cyber-Archaeology and Sustainability, California Institute of Telecommunications and Information Technology (Calit2), Qualcomm Institute;
- Director, UC San Diego Levantine Archaeology Laboratory;
Co-Director, Scripps Center for Marine and Environmental Archaeology, University of California, San Diego

Membership

- American Academy of Arts & Sciences, Fellow Class of 2008
- American Schools of Oriental Research (life member); 2015–2017 Chair, Committee on Archaeological Policy
- Archaeological Institute of America (Academic Trustee & member of Governing Board), 2016–
- Associate, Current Anthropology, 2000–
- Explorers Club, Fellow Class of 2009–
- Israel Exploration Society, member, 1980–
- Israel Prehistoric Society, member, 1980–
- The Biblical Colloquium West, founding member, 1997–2008
- American Institute of Archaeology, member, 2000 –
- Society of American Archaeology, member, 1992 –

Awards

- 1996 University of California Presidential Award for Excellence in Undergraduate Research

- 1997 Best Academic Book in Archaeology, Biblical Archaeology Society, for T. E. Levy (ed.) 1995, *The Archaeology of Society in the Holy Land*. London: Leicester University Press
- 1998 Irene Levi-Sala Book Prize in the Archaeology of Israel for best publication in category of “popular non-fiction books,” for *The Archaeology of Society in the Holy Land*. London: Leicester University Press
- 2003 American Schools of Oriental Research, P. E. MacAllister *Field Archaeology Award*
- 2006 Inaugural holder of the Norma Kershaw Endowed Chair in the Archaeology of Ancient Israel and Neighboring Lands, University of California San Diego; April 30, 2006 –
- 2007 Department of Antiquities of Jordan Publication Award for *Crossing Jordan – North American Contributions to the Archaeology of Jordan* (London: Equinox) by the Department of Antiquities of Jordan, presented at the 10th Annual Conference on the History and Archaeology of Jordan, George Washington University, Washington, D.C. by H.R.H. Princess Sumaya al-Bint Hassan of Jordan and Dr. Fawwaz al-Khraysheh, Director General, DOAJ; May.
- 2008 Elected Fellow to the American Academy of Arts & Sciences, Boston, MA
- 2009 Elected Fellow to the Explorers Club, Headquarters in New York
- 2011 Biblical Archaeology Society Publication Award, Best Scholarly Book on Archaeology, *Historical Biblical Archaeology and the Future – The New Pragmatism*, (London: Equinox)
- 2011 Lowell Thomas Award for ‘Exploring the World’s Greatest Mysteries’, The Explorers Club, October 15, St. Louis, Missouri
- 2013 Best Academic Article, Biblical Archaeology Society, October, Washington, DC
- 2015 Elected member, European Academy of Sciences and Arts, March, Salzburg, Austria
- 2016 CENIC (Corporation for Education Network Initiatives in California) Award for Innovations in Networking – Research Applications
- 2017 Faculty Research Lecturer Award, University of California San Diego, Academic Senate Committee on Senate Awards

Field work

- 2017 UCSD 3D Archaeology in Israel Expedition. Project role: PI; with Assaf Yasur-Landau and Erez Ben-Yosef, September.
- 2016 UCSD – University of the Aegean (Rhodes) Kastrouli Land and Sea Project, Greece. Project role: PI; with Ioannis

- Liritzis and Richard Norris (SIO-UC San Diego). July 19 – August 11.
- 2015 UCSD – Institut national des sciences de l'archéologie et du Patrimoine, Morocco Cyber-Archaeology Expedition to Ifrane, Anti-Atlas mountains, ancient Jewish community.
- 2014 UCSD Cyber-Archaeology Expedition to Iron Age Khirbat al-Jariya, Jordan: Project role: PI, August.
- 2012 Cyber-Archaeology Expedition to Madh al-Dahab Gold Mines and Umm Damman Copper Production Site, Saudi Arabia; King Abduallah University of Science and Technology (KAUST), Saudi Arabia, Project role: Co-Field Director. September 3 – 11.
- 2012 UCSD Edom Lowlands Regional Archaeology Project (ELRAP); Phase II expedition to Faynan; October 1 – November 24. Principal Investigator and Co-Field Director.
- 2011 UCSD Edom Lowlands Regional Archaeology Project (ELRAP); Phase II expedition to Faynan; September 24 – November 24. Principal Investigator and Co-Field Director.
- 2009 UCSD Edom Lowlands Regional Archaeology Project (ELRAP) expedition to Khirbat en-Nahas, Jordan. September 24 – December 6, 2009. Principal Investigator and Co-Field Director.
- 2007–2004 Ethnoarchaeology research project in Tamil Nadu, India: Hereditary bronze caster community in Swamimalai; UC San Diego Expedition, role: PI
- 2006–2007 Edom Lowlands Regional Archaeology Project, Fall 2006 and Summer 2007. Role: Principal Investigator and Co-Director, UC San Diego Dept of Antiquities of Jordan expedition.
- 1999–2002 Excavation in Jabel Hamrat Fidan, Jordan. Pre-pottery Neolithic, Chalcolithic, Early Bronze II-IV and Iron Age sites. Role: Principal Investigator; UC San Diego Dept of Antiquities of Jordan expedition.
- 1997 Copper Age Donkey Caravan (Jordan-Israel) Expedition, National Geographic Society. Role: Principal Investigator.
- 1994–96 Egyptian-Canaanite Interaction at Nahal Tillah, Northern Negev Desert, Israel. An NEH funded joint University of California, San Diego-Hebrew Union College, Expedition. Sponsored by the University of California, San Diego, Department of Anthropology, Judaic Studies Program, and Summer Session. Role: Principal Investigator.
- 1993 Excavations at Shiqmim, Northern Negev Desert, Israel. A joint University of California, San Diego – Hebrew

- Union College, Expedition, sponsored by the University of California Education Abroad Program. Role: Principal Investigator and Program Director.
- 1987 Excavations at the Gilat Chalcolithic cult site. Sponsored by the Nelson Glueck School of Biblical Archaeology, HUC-JIR, Jerusalem and the Israel Department of Antiquities and Museums. Role: Co-Director with Mr. David Alon.
- 1982–84 Shiqmim Chalcolithic research expedition (Phase I). Sponsored by the Israel Department of Antiquities and Museums and the Negev Museum. Role: Principal Investigator.

Congresses and symposia organized

- 1993 *Archaeology in the Holy Land: New Approaches to the Past – The 1990s and Beyond*, held at the University of California, San Diego, January 28–31. Symposium organizer.
- 1998 *Egyptian – Canaanite Interaction During the Late 4th 3rd Millennium, BCE*. Nelson Glueck School of Biblical Archaeology, Jerusalem, Israel, April 13–16, 1998. Co-symposium organizer.
- 2004 *International conference on Radiocarbon Dating and the Iron Age Archaeology of the Levant*. Primary organizer, Oxford Centre for Hebrew and Jewish Studies, Sept. 6–10, 2004.
- 2006 *Biblical Archaeology and the Future*. Symposium to mark the inauguration of the Norma Kershaw Endowed Chair in the Archaeology of Ancient Israel and Neighboring Lands, UCSD, April 30, 2006; Symposium organizer.
- 2009 Theoretical Archaeology Group Meetings, Stanford University, May 1–3, 2009. Session organizer: *Changing models for understanding Biblical Edom: anthropology, environment and information technology*. Session organizer.
- 2012 *Social Theory and the Archaeology of the Ancient Near East*, 8th International Congress on the Archaeology of the Ancient Near East (ICAANE), April 30 – May 4, 2012, University of Warsaw, Poland. Session organizer, with Ianir Milevski.
- 2013 *Out of Egypt: Israel's Exodus between Text and Memory, History and Imagination*, International conference, May 31 – June 3, 2013, Qualcomm Institute, UC San Diego; Host and chief organizer.
- 2013 1st International Workshop on Virtual Archaeology – Museums & Cultural Tourism, Delphi, 40 Greece, 25–28 September; Transdisciplinary Research and Cyber-

- Archaeology Today: Toward the Museum of the Future, Session organizer.
- 2013 *Cyber-archaeology workshops with the American School of Classical Studies in Athens* (with Prof. J. Wright, Director) and Institute for Aegean Prehistory Center for East Crete (with Dr. T. Brogan).
- 2014 *Cyber-Archaeology in the Middle East Today*, Special Reception and Demos at UCSD Qualcomm Institute for ASOR Annual Meeting Participants, 20 November. Organizer.
- 2016 World Archaeology Congress, Kyoto, Japan, August 28 – September 2. *Cyber-Archaeology in Global Perspective* (with Maurizio Forte and Sarah Kinderdine).
- 2016 *Cyber-Archaeology in the Levant*, American Schools of Oriental Research (ASOR), Annual meetings.
- 2017 Scripps Center for Marine Archaeology Workshop, Scripps Institution of Oceanography – UC San Diego (with John Hildebrand), March 23.

GRADUATION FORMULA AND OATH OF THE DOCTORANDUS

Promotor:

Cōnsilium Facultatis philosophicae Ūniversitatis Carolīnae nōn ignōrāns, vir illūstrissime, tē et doctrinā tuā, quam in archaeologiae quaestioñēs perscrūtandās impendistī, et vītae tuae operibus necnōn āctibus, quibus patriae tuae atque tōtiū mundi cōgnitionem et scientiam generī hūmānō maximē prōficuam amplificāvistī, dē salūte ūniversi generis hūmānī prae cēteris optimē meritum esse

commūnī omnium applausū dēcrēvit, ut in doctōrum philosophiae honōris causā numerum recipereris.

Quod ordinis nostrī cōsultum cum ā cōnsiliō generālī Ūniversitatis Carolīnae cōfirmātum esset, tē, vir illūstrissime, petiimus, ut illum ūnum et summum honōrem, quem tibi Ūniversitās nostra impertīre posset, in hōc sollemnī cōsessū acciperēs.

Prius autem spōnsiō sollemnis tibi suscipienda est.

SPONDĒBIS IGITUR:

Prīnum tē huius Ūniversitatis, in quā hunc summum virī doctī gradum honōris ascenderis, piām perpetuō memoriam habitūrum eīque auctōritāte, auxiliō, cōsiliis tuīs numquam dēfutūrum,

dein studia ūtilissima, sīcut adhūc facere semper cōnsuēvistī, prōvehere nōn dēsitūrum, ut vēritās salūtem generis hūmānī continēns prōpāgētur et lūx eius terrārum orbem illūstret.

Haec tū ex animī tuī sententiā spondēbis ac pollicēberis?

Doctor:

SPONDEŌ AC POLLICEOR

Promotor:

Itaque iam nihil impedit, quōminus honōrēs, quibus tē ordō noster ornāre cupit, tibi impertiāmus.

Ergō ego, prōmōtor rīte cōnstitūtus,
ex dēcrētō cōnsiliī Facultātis philosophicae
tē, professōrem Thomam Evan Levy

virum doctissimum, quī dē Orientis Propinquī atque Aegyptī historiā tri-
um millēniōrum Chrīstum nātum praecēdētūm indāgandā orbī terrārum
optimē sīs meritus,

PHILOSOPHIAE DOCTŌREM HONŌRIS CAUSĀ CREŌ,
CREĀTUM RENUNTIŌ,

omnia philosophiae doctōris prīvilēgia in tē cōnferō in eiusque reī fidem
hoc diplōma Ūniversitātis Carolīnae sigillō maiōre īsignītum tibi in ma-
nūs trādō.

Decorēris etiam catēnā dēaurātā, quā vinculum tuum cum Ūniversitāte
Carolīnā per omnēs annōs dūrātūrum apertē ac symbolicē significētur.

QUOD BONUM, FĒLIX,
FAUSTUM FORTŪNĀTUMQUE ĒVENIAT!

SIGILLO ROBORANDAS CURAVIMUS

DABAMUS PRAGAE DIE VI MENSIS APRILIS ANNI MMXVII

DECANVS

RECTOR

PROMOTOR

SPEECH OF THE DEAN OF THE FACULTY OF ARTS

Professor Thomas Evan Levy was born on 11 September 1953 in North Hollywood, California, in the United States of America. Professor Levy grew up in San Fernando Valley, where as a teenager he experienced his first excavation – a Native American site in a district of Los Angeles called the Pacific Palisades. Archaeology remained his life-long passion. His professional interest focused on the region of the Levant (today's territory of Israel, Palestine, Lebanon, Jordan and Syria, and also Egypt and the entire East Mediterranean in the broader context) and India, which he has visited regularly for nearly thirty years in order to work on archaeological digs and carry out other related scientific work. He has never regretted his decision to focus on things that happened many lifetimes ago. "The past is a beautiful place," says Levy, "I've been doing archaeology since I was in high school, so I continue to live my dream every day."

Professor Levy's parent institution is the University of California in San Diego, where he holds the Norma Kershaw Chair in the Archaeology of Ancient Israel and Neighboring Lands. Professor Levy is a key figure in contemporary scientific research of several important topics related to the development of civilisations. This most importantly concerns the period of the origin of the first states from the end of 4000 BCE to the beginning of 3000 BCE in the Near East. Levy's discovery of the largest source of copper in the entire region in Wadi Feynan is dated to 3,000 BCE. This discovery also has an enormous impact on the knowledge of ancient Egypt and the international trade relations of this specific period. His research in Wadi Feynan has also resulted in completely new knowledge about the formation of civilizations in the Iron Age and the beginnings of ancient Israel. In recent years Levy has focused on the field of so-called *cyberarchaeology*, i.e., use of the most modern hi-tech technologies for documenting archaeological research and its interpretation. And we must further mention Professor Levy's intensive interest in so-called ethnoarchaeology, particularly with regard to copper metallurgy and its traditional methods. Levy has primarily carried out this research in India. Professor Levy is truly a scientist of global significance whose work, theoretical range and training of several generations of archaeologists and experts in ancient history is of worldwide importance.

Professor Levy has worked with the Czech Institute of Egyptology at the Faculty of Philosophy at Charles University in the field of archaeology and contact between ancient Egypt and Syro-palestine since the beginning of the 21st century. Levy's research in the Wadi Feynan territory, where his expeditions discovered unique monuments dating to the period between

3000 BCE and 1000 BCE, has been a major contribution to this field. The Czech Institute of Egyptology carries out work on markedly similar topics and Czech archaeological research in Abusir also offers significant parallels for Levy's work in the Near East in the field of international trade and also in relation to the genesis of the first complex societies between 3000 BCE and 1000 BCE.

The Director of the Czech Institute of Egyptology, prof. Miroslav Bárta, has lectured as a guest of Thomas Levy at the University of California in San Diego, as Professor Levy has done in Prague, and several students of Egyptology in Prague have also participated in Prof. Levy's research in Jordan as part of their archaeological training. Finally, Levy and Bárta have also collaborated on research of the modern nature of Biblical archaeology within the terms of the publication titled *Historical Biblical Archaeology and the Future. The New Pragmatism*, which was published in 2010. Their collaboration has recently concentrated on the theory of punctuated equilibrium and its application in fields such as archaeology, Egyptology, history and also security studies – in relation to the interest of the American Armed Forces in these theories and their consequences.

Professor Levy's career is far from ending, however, the summary of his scientific expeditions, organised conferences and awards is very extensive. His bibliography includes numerous studies, monographs and edited collections covering practically every topic of importance on Near East archaeology, starting from the cultures of the period between 4000 BCE to 3000 BCE, through the topic of the Old Testament, to the Iron Age. Levy's archaeological research and scientific work has significantly affected and continues to affect several directions of research and has had a fundamental impact on a generation of scientists.

The Faculty of Philosophy at Charles University has therefore proposed that Professor Thomas E. Levy be awarded the title *Doctor honoris causa*, for his fundamental worldwide contribution to the knowledge of the ancient history of the Near East and Egypt during the period between 3000 BCE and 1000 BCE.

**THE AWARD CEREMONY IN THE CAROLINUM
GREAT HALL WAS ATTENDED
THE FOLLOWING
CHARLES UNIVERSITY OFFICIALS**

His Magnificence Rector prof. MUDr. Tomáš Zima, MD., DSc.
of Charles University

Spectabilis Dean doc. PhDr. Michal Pullman, Ph.D.
of the Faculty of Arts

Honorabilis promotor prof. PhDr. Miroslav Verner, DrSc.

and others top representatives of the Charles University and its faculties.
