

## **WORKS TO REVIEW FOR BASOR**

If you are interested in reviewing a newly published book, please send your resume and title of the books you would like to review to [basor@asor.org](mailto:basor@asor.org) with the subject “REQUEST TO REVIEW.” All who offer to review a book are kindly asked to provide a preferred postal address. We should like to emphasize that we anticipate we will sometimes have multiple scholars offering to review the same volume. In such cases, the editors will select the most suitable reviewer for the volume, based on a variety of academic factors.

Note also that (1) It will normally be necessary for potential reviewers already to have an earned doctorate in hand. (2) After receiving an offer from someone to review a volume, the editors of BASOR will normally take around three to six weeks before responding to the offer. (3) It will normally be necessary for reviewers to complete the review of a book within six months of receipt of the book, so that the review can appear in print within a reasonable time-frame after a book’s publication. Reviewers who do not complete the review within the required time-frame will be requested to return the volume so that it can be offered to a different reviewer. (4) Reviews are normally to be ca. 1500 to 2500 words long. (5) BASOR will publish some reviews in the print edition of BASOR, but some reviews may be published exclusively online.

Thank you very much for your interest in BASOR Reviews. We look forward to hearing from you.

Sincerely,

The BASOR Editors and Editorial Board
